

Release Notes

Date: Jan 18th, 2018

Compatible Models	<input checked="" type="checkbox"/> NovoCast <input checked="" type="checkbox"/> NovoPro <input checked="" type="checkbox"/> NovoEnterprise		
Category	Release version	Operation System	Remarks
Software			
<input checked="" type="checkbox"/> Remote Manager Software	3.0.0	Windows / MAC	
<input checked="" type="checkbox"/> Remote Manager DB Server	1.0.1	Windows	

Key Changes

New Changes

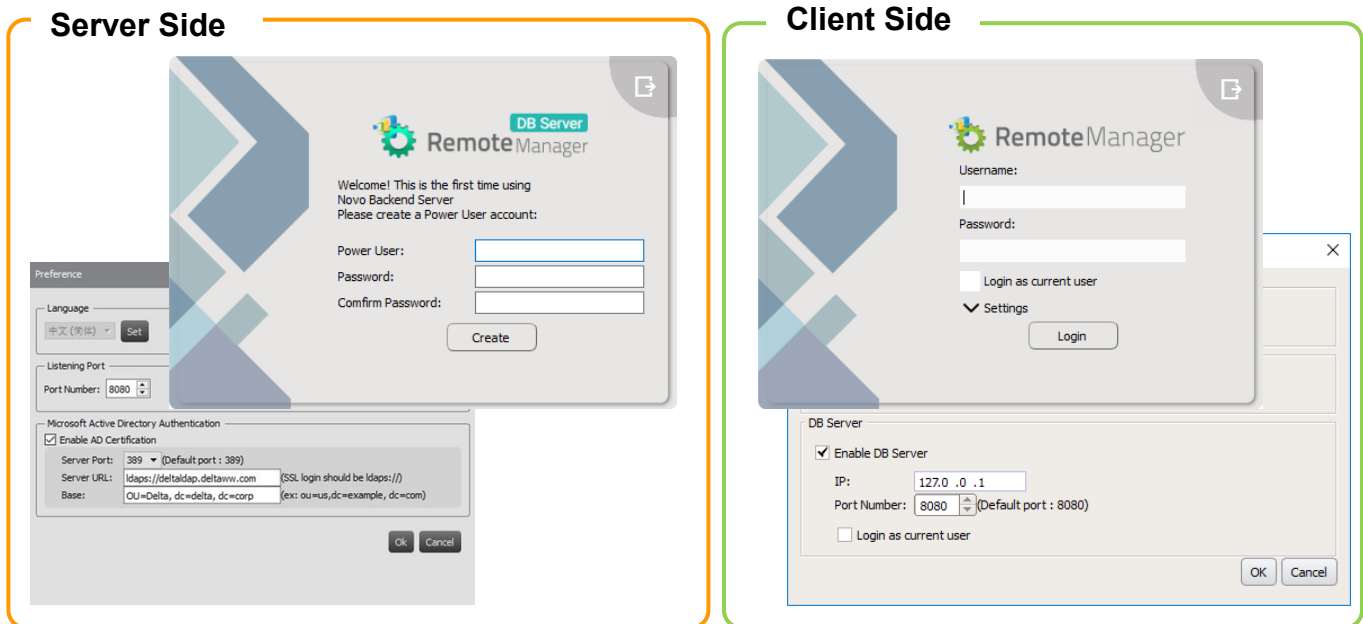

- ❖ Introduce two operation modes in Remote Manager
 - Standalone Mode – same as the original Remote Manager Software
 - Server Mode – new DB Server for deployment in server environment
- ❖ Introduce LDAP-capable “DB Server”
 - Integrate LDAP service – support Microsoft Active Directory (AD)
 - Support Single Sign-On (SSO)
 - Centralize the management of the device list and device groups
 - Support two user roles: admin users and general users

Improvements

- ❖ Improved “Group Operations”. (For example, triggering firmware upgrade for a device group.)
- ❖ Bug-fix – Remote Manager crashes when managing more than 500 devices

What is the new feature?

LDAP-capable “DB Server”

To learn more about Remote Manager’s operation modes, refer our documents of [Remote Manager Software](#) and [Remote Manager DB Server Deployment](#).

How to upgrade

- Device Firmware upgrade
 - Go to Device “Settings → Firmware Upgrade”, follow the on-screen instruction to get the latest version updated online.
- Software upgrade – visit www.vivitekusa.com, Chrome Web Store, App or Google Play store. Follow the instruction to get the latest version updated
