SETTING UP NovoPRO

Hardware Installation

HDMI Port: Connect to a projector or display.

DC 5V Power Connector: Connect to the USB power adapter using the supplied USB cable.

USB Port: Connect to a USB flash drive, mouse or keyboard.

Ethernet Connection (Optional)

RJ45 (Ethernet) Port: Connect to a wired network via an Ethernet cable.

SETTING UP NovoPRO

Wi-Fi Setup

There are two ways to connect to NovoPRO:

Hotspot Mode

NovoPRO's default setting is set to Hotspot mode. The connection is made directly to the SSID broadcasted by the device.

Wireless AP Mode

NovoPRO can also be connected to an existing Wi-Fi network simply by connecting the devices to the same network. Tap the Wi-Fi button to proceed.

GETTING STARTED

1 Install the app.

- For a tablet or smartphone: Download *NovoPresenter* from the iOS App Store or from Google Play.

- For a Windows or Mac computer: Download *Desktop Streamer* from the Vivitek website (www.vivitekusa.com/NovoPRO).

- For Chromebook: Download *Desktop Streamer* from the Chrome Web Store.

chromebook

2 Connect the tablet/smartphone, computer or Chromebook to the same network as the NovoPRO. Follow the device's Wi-Fi procedures for connecting to your Wi-Fi network.

3 Launch *NovoPresenter* or *Desktop Streamer*.

4 Scan the QR code or manually input the device's IP address and PIN code (if needed) to connect.

The device screen will appear automatically upon successful connection.

SCREEN MIRRORING

NovoPRO supports direct mirroring of Android™ and iOS device screens.

- 1 Connect the Android™ or iOS device to the same Wi-Fi network as the NovoPRO. Then, follow the mirroring setup instructions for the selected Android™ or iOS device.
 - For Android devices, this is referred to as Miracast®, Screen Mirroring, Cast Screen, etc.
 - For iOS devices, this is called AirPlay®.
