

Vivitek AirReceiver Installation Guide - Qumi Q38

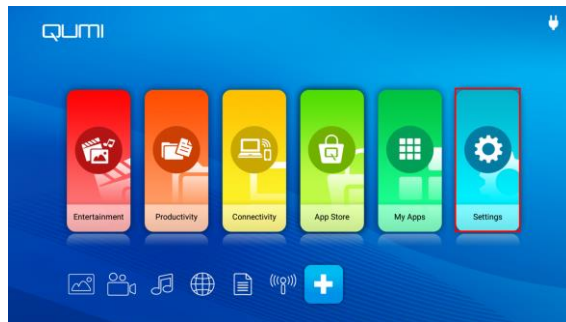

The Qumi Q38 has a brand new application ready that will more efficiently allow for the wireless mirroring of connected personal computers, smartphones and tablets (iOS/MacOS/Windows/Android operating systems) to the Qumi Q38 without requiring any physical cables. This Installation Guide will assist you in the process to get the Q38 up and running as quickly as possible with the new Vivitek AirReceiver application. The installation process consists of two actions and includes the following:

- I. Remove older HappyCast Application from Q38
- II. Install new Vivitek AirReceiver Application into Q38

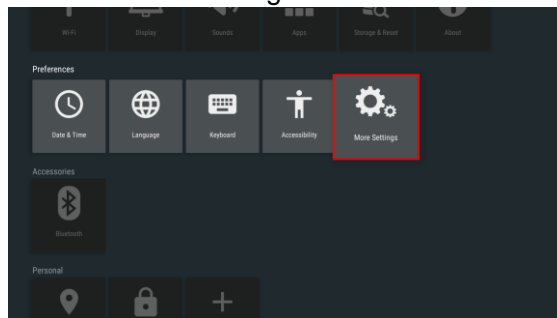

Step I. Remove HappyCast Application

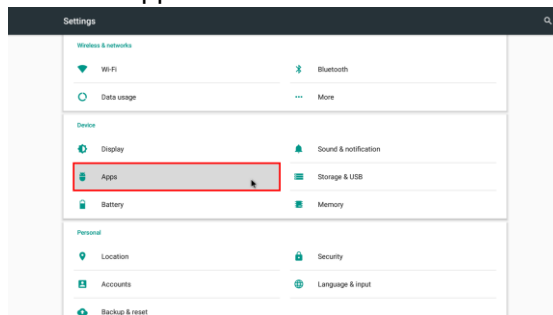

- 1. On the HomeScreen page, click “Settings”.

- 2. Choose “More Settings”.

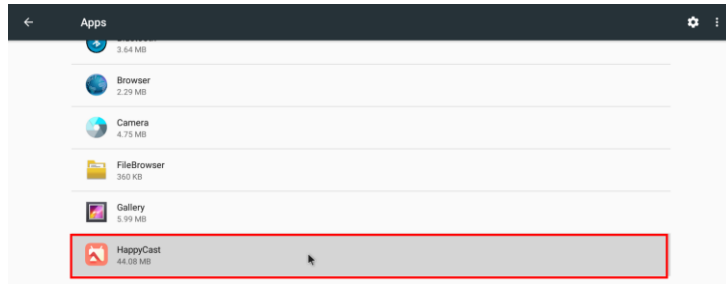

- 3. Choose “Apps”.

- 4. Choose “HappyCast”.

5. Choose “Uninstall”.

6. Click “Ok” to complete the uninstall process.

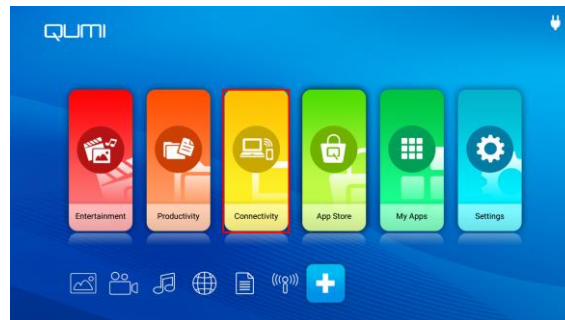

Step II: Install Vivitek AirReceiver Application

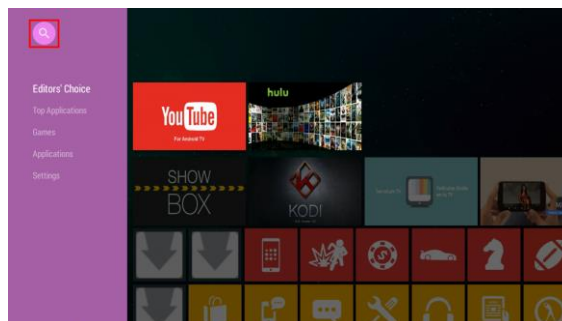

Vivitek AirReceiver

1. On the HomeScreen page, launch the “Qumi App Store”.

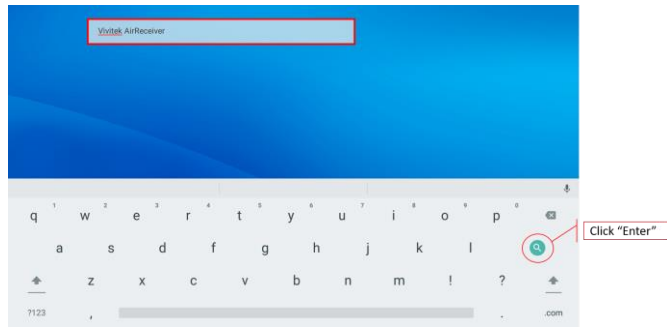

Note: Ensure that the Qumi Q38 is connected to a wireless network.

2. Choose the “Search” button.

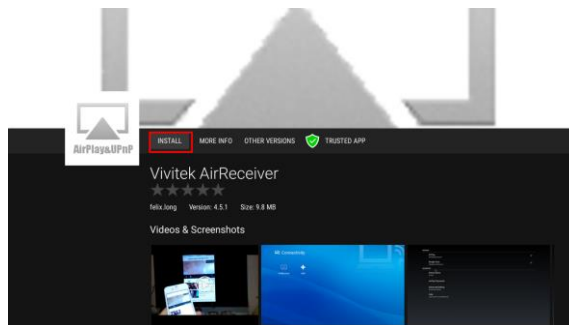

3. Type in “Vivitek AirReceiver” and click “Search”

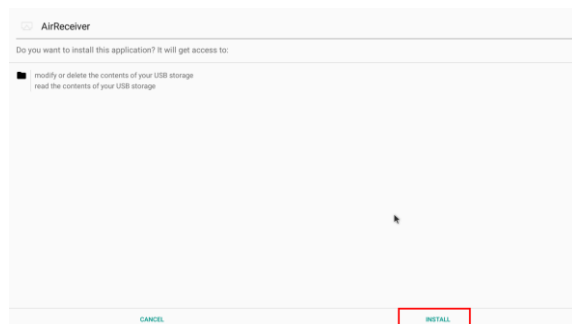

4. Choose the "Vivitek AirReceiver" App icon.

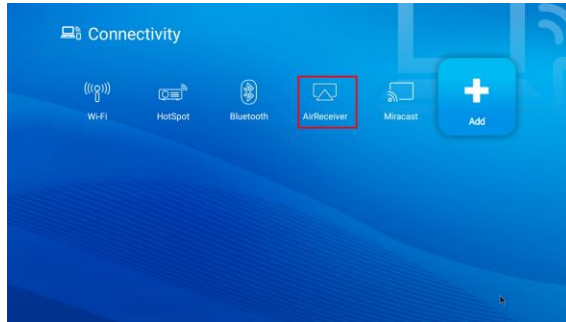

5. Choose "Install".

6. Click "Ok" to complete the installation process.

7. Vivitek AirReceiver has now been successfully installed.

For additional usage instructions, please refer to the Q38's User Manual.
